Push

Mary, I'm just going to search SEQ ID NO:1 (nucleotides 100-2274). I am going to tell Applicant we don't have the resources to do anymore than that.

Good morning Jennifer,

The searches you submitted under serial number 10/735,098 (both requests dated 8/18) will require over 20 hours of processing time. We are unable to process your requests. Please meet with one of the screen team examiners (Martinell, Fredman, Pak or Priebe). One of them will review your strategy and can offer ways to modify your request to best optimize the ABSS server's processing time.

Your searches have been canceled.

Sincerely,
Mary
